Internship

Trainee Software Engineer, Airobosoft Pvt Ltd.

Mar 2023 - Jun 2023

- Worked on the Banking Information System project.
- Implemented key functionalities: user registration, login, account creation, deposit, withdrawal, transfer, and transaction history.
- Transitioned the project from a command-line interface to a graphical user interface (GUI) to enhance the user experience.
- Gained valuable skills in Java programming, user interface design, and software development practices.

Projects

Medico (Doctor Appointment Booking System)

Developed a web-based application using JavaScript and MySQL for booking and managing doctor appointments.

- Designed and implemented a user-friendly interface, secure database, and payment integration system.
- Ensured functionality and performance through testing and debugging.

Weather Forecast Application

Developed a Python-based web application to provide accurate and reliable weather forecasts.

- Designed a Tkinter GUI interface, secure database, and data visualization system.
- Collected and processed weather data from sources like OpenWeatherMap API, offering data in JSON, XML, and HTML formats.

Skills

Programming Languages: C++, Java, SQL

Web Technologies: HTML, CSS, JavaScript

Frameworks: JDBC, Hibernate, Spring

Achievements

- Secured first place in an essay writing competition on women empowerment.
- Secured first place in the Zonal Level Throw Ball Competition.
